HTML5 | CSS | JavaScript | React.js  
Node.js | Express.js | MongoDB  
Visual Studio Code | Postman  
Self Motivation | Quick Learner |  
Critical Thinking | Team  
Collaboration

## CERTIFICATIONS

**MERN Stack Developement**  
Techmindz | Kochi  
2024

**Internship Certificate**  
Riss Technologies | Kannur  
2024

**Volunteer Certificate**  
National Service Scheme (NSS)  
Kannur University | Kannur  
2023

## PROJECTS

### Doctor Booking App:

**HTML5 | CSS | JavaScript | React.js**

**Node.js | MongoDB | Express.js**

- Developed a full-stack web application for doctor appointment bookings, featuring user-facing interfaces and admin functionalities using modern front-end and back-end technologies.
- Designed and implemented a responsive UI and a secure backend, integrating a scalable database for managing users, doctors, and appointment data effectively.

### Todo App:

**HTML5 | CSS | JavaScript | React.js**

- Developed a task management web application with features for adding, editing, deleting, and marking tasks as complete using front-end technologies.
- Designed a responsive and user-friendly interface with dynamic task filtering and sorting to enhance usability and efficiency.

### User CRUD API:

**Express.js | Node.js | MongoDB Atlas**

- Developed a CRUD-based user management system with secure and scalable backend using Express.js and MongoDB Atlas, implementing Create, Read, Update, Delete functionalities for efficient user data management.
- Designed and documented the API using Swagger, ensuring clear and structured API documentation for developers.
