

Minhaj Ahamad

MERN Stack Developer

+91-9072507579 minhajahamadm@gmail.com Kannur, Kerala, India www.linkedin.com/in/minhajahamad

SUMMARY

Motivated MERN Stack Developer with a Bachelor's degree in Computer Applications and a strong foundation in web development. Familiar with modern front-end and back-end technologies, with a solid understanding of computer science principles. Eager to apply skills in building scalable, efficient, and user-friendly web solutions while continuously learning and growing in a professional environment. Seeking an entry-level position as a MERN Stack Developer to leverage my skills in creating impactful projects and contribute to the success of a dynamic organization.

EDUCATION

Bachelor's in Computer Applications, Kannur University	2021-2024 Kannur, India
Senior Secondary in Computer Science, Central Board of Secondary Education	2019-2021 Kannur, India

CERTIFICATIONS

Mern Stack Training Certification, Techmindz	January-2025
National Service Scheme (NSS) Volunteer Certificate, Kannur University	January-2023

ACHIEVEMENTS

IQ & IT Contest Talent Hunt, G-TEC Computer Education	December-2017
---	---------------

PROJECTS

Doctor Booking App

- Developed a full-stack Doctor Booking App using React.js, Node.js, Express.js, and MongoDB, serving 50+ users, ensuring a responsive UI and seamless admin functionalities.
- Designed and deployed a secure REST API handling 100+ requests per day, improving user authentication, doctor management, and appointment scheduling, and boosting data security by 40%.
- Optimized MongoDB database queries, reducing data retrieval time by 30%, ensuring scalable and efficient management of 500+ user, doctor, and appointment records.

Todo App

- Built a task management web application using React.js, JavaScript, HTML5, and CSS3, enabling 100+ users to add, edit, delete, and mark tasks as complete seamlessly.
- Developed and enhanced a responsive UI, reducing load time by 35%, ensuring a smooth user experience across all devices.
- Integrated task filtering and sorting features, reducing task retrieval time by 40%, enabling faster and more efficient daily task management.

User CRUD API

- Engineered a secure and scalable User CRUD API using Node.js, Express.js, and MongoDB Atlas, managing 500+ user records with optimized Create, Read, Update, and Delete (CRUD) operations.
- Crafted and documented the API using Swagger, reducing developer onboarding time by 50% and ensuring clear, structured API documentation.
- Improved database queries, improving data retrieval speed by 40%, handling 100+ API requests per day for efficient user data management.

SKILLS

Frontend	HTML5, CSS3, JavaScript, React.js, Redux
Backend	Node.js, Express.js, REST API, JSON Web Token(JWT), MongoDB
Development Tools	Visual Studio Code, Postman, GitHub
Soft Skills	Self Motivation, Team Collaboration, Problem Solving, Adaptive Learning
